📍 Keonjhar, Odisha

PROFESSIONAL SUMMARY

Results-driven Computer Science graduate skilled in Python programming, software development, and problem-solving. Strong foundation in OOP, data structures, databases, networking, and cybersecurity fundamentals, with experience in application development and API integration. Aspiring Cybersecurity Engineer passionate about building secure, scalable, and innovative technology solutions.

INTERNSHIP EXPERIENCE

Core Java internship training from Internshala.	2023
Python programming internship from YBI Foundation.	2024
CyberDojo – Web App VAPT Intern (June 2025 – August 2025)	2025
- Conducted vulnerability assessment and penetration testing on web applications using Burp Suite, Nmap, and OWASP methodologies. - Collaborated with Red, Blue, and Purple Teams to analyze, exploit, and secure real-world web systems. - Documented findings, prepared reports, and recommended fixes for identified security gaps.	
Data Analyst Intern PySpiders	2026
Currently undergoing industry-oriented training in Python, SQL, and Data Analytics at PySpiders.	

NOTABLE PROJECTS

- **An Assistant**
 - A Python-based smart assistant capable of performing system tasks, answering queries, and automating routines.
- **Malware Analysis Lab**
 - Built a controlled virtual environment to analyse and understand malware behaviour using reverse engineering tools and static/dynamic analysis techniques.
- **A fully functional Artificial Intelligent Avatar**
 - Built a fully functional artificial Intelligent avatar that works on AI and produce outputs efficiently based on Inputs.
- **Uber Homepage Framework**
 - A working modified framework of Uber homepage design with zero unnecessary features.
- **Bluepeak – A Bluetooth Attack Simulation And Vulnerability Assessment Tool(Major Group Project)**
 - A Linux cli based tool capable of performing various Bluetooth related cyber-attacks simulation and assesses the vulnerabilities using python.

TECHNICAL SKILLS

Programming: Python, Java, C Programming
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Database: MySQL, Oracle SQL,PLSQL,
Libraries: Basic Pandas, Bleak, Scapy, PyBluez
Operating Systems: Windows, Linux

EDUCATION

B-Tech in Computer Science Engineering	CGPA: 8.35 2026
Synergy Institute of Technology, Bhubaneswar (BPUT Affiliated)	
Higher Secondary (+2 Science)	
Rabindra Vidya Niketan, Keonjhar (CBSE)	Percentage: 85.8% 2021
Matriculation	Percentage: 86.8% 2019
Odisha Adarsha Vidyalaya, Salapada, Anandapur, Keonjhar, Odisha (CBSE)	

ACHIEVEMENTS & CERTIFICATION

- **CyberDojo – CCSFC (Certified Cyber Security Fundamentals Course)** (On-site Training – March 2025, Gujarat)
Completed blended training program (college + company) covering Red, Blue, and Purple Team operations. Gained practical experience in network exploitation, digital forensics, and incident response using real-world simulations and tools.
- Completed **Cybersecurity Essentials** certification from **Cisco Networking Academy**.
